PROFESSIONAL PROFILE

Highly committed Full Stack Developer, graduated with honors from ITLA with a perfect GPA (4.0). I have solid experience in JavaScript, Node.js, Next.js, and React, specializing in building scalable and efficient solutions. I stand out for my analytical skills, technical leadership, and results-oriented mindset. I'm passionate about continuous learning and about delivering real value in every project.

EXPERIENCE

Precisa Group SRL

Full Stack Developer

Hybrid

2024 - Present

- Designed and developed the KYC (Know Your Customer) system using Node.js, React, and SQL Server, improving identity validation and legal/work history analysis by 40% in operational efficiency.
- Implemented internal web automations with Python and Selenium, reducing repetitive operational processing times by over 50% while promoting standardization and consistency.
- Designed, developed, and maintained secure REST endpoints with JWT, granular access control, and data validation, ensuring high system availability and scalability.
- Collaborated with multidisciplinary teams to integrate technical solutions aligned with business goals, demonstrating effective communication and adaptability.

Banco BHD

Intern

On-site

Sept 2023 – Dec 2023

- Contributed to the optimization of financial processes through the application of Scrum methodology, improving workflow efficiency and reducing response times during the internship.
- Collaborated with the development and analysis teams to automate administrative tasks using agile management tools, strengthening teamwork and adaptability skills.
